## About Me

Passionate full-stack developer with expertise in MERN stack, MySQL, and AI applications. Experienced in building scalable web applications, real-time systems, and data-driven solutions. Strong problem-solving skills with a keen interest in technology, coding competitions, and continuous learning.

## Skills

**Languages** HTML, CSS, JavaScript, Python, Java, SQL  
**Databases** MongoDB, MySQL  
**Technologies** React.js, Node.js, Express.js, Next.js, Git and GitHub, Hugging Face  
**Soft** Project Management, Team Collaboration, Communication

## Projects

### Full-Stack Portfolio Platform — [theta-konnnect.netlify.app](https://theta-konnnect.netlify.app)

- Developed a responsive portfolio platform for users to showcase projects.
- Integrated modern technologies like React, Node.js, and MongoDB.
- Enhanced user experience with intuitive design and seamless navigation.

### Real-Time Chat App

- Developed a real-time chat application using React.js, Node.js, Express.js, and Socket.io
- Implemented WebSocket communication for instant messaging and user presence updates
- Integrated user authentication with JWT for secure access
- Designed a responsive UI using Tailwind CSS to ensure seamless mobile and desktop experience

### E-Commerce Site

- Developed a full-stack e-commerce platform using MERN stack (MongoDB, Express.js, React.js, Node.js)
- Implemented secure user authentication with Passport.js
- Designed and integrated a shopping cart, product listings, and checkout system
- Built an admin dashboard for managing products, orders, and users

### Airbnb Clone

- Developed a full-stack Airbnb clone using Node.js, Express.js, MongoDB, and EJS templates
- Implemented user authentication with Passport.js for secure login and session management
- Designed dynamic listing pages with EJS for rendering property details and user interactions
- Integrated CRUD functionality for users to create, update, and delete property listings
- Implemented file uploads using Multer for property images and stored URLs in MongoDB

### Text-to-Image Generator

- Developed an AI-powered text-to-image generation tool using the ZB-Tech/Text-to-Image API on Hugging Face.

## Certifications

- Introduction to MySQL – DataCamp
- Introduction to Artificial Intelligence – DataCamp

## Additional Information

- Participated in a university coding competition and secured 4th place.
- Gained valuable experience in time management and problem-solving under pressure.
- Developed the ability to maintain composure and strategic thinking in high-stakes scenarios.

## Education

### Bachelor of Science in Computer Science

COMSATS University Islamabad (CUI), Sahiwal, Punjab  
Current CGPA: 3.43/4
